Dear Kathryn C. Dimiduk,

Thank you for being a Genworth Life policyholder. We value your business and are committed to providing quality service.

This letter serves to note the status of your policy's third party designation. Regulations in your state require that we contact you periodically to remind you of your right to designate at least one person to receive notifications of lapse or termination for nonpayment of premium. Naming someone to receive these notifications helps to prevent the unintentional lapse of your valuable long term care insurance coverage, and is strongly encouraged.

We want to let you know that you may change the individual(s) you have designated to receive notification should your policy ever be in danger of lapsing due to non-payment of premium.

Listed below are the person(s) who, along with you, will receive notification if your policy should be in danger of lapsing. If there are no changes to your third party information, no further action is required.

If you would like to make changes, you have various options:

- You may request changes by registering your policy online at genworth.com. Once registered, you can add or edit one or more third parties and then submit your changes directly through the web.
- If you choose not to register your policy, you can still access the third party form online at genworth.com. You can then mail or fax a completed form to us using the contact information above.
- We will also accept a written, signed and dated request from the policyholder that includes, your name, your policy number, the name(s) of the third party designee(s) and the third party designee(s) address(es). Please mail or fax the completed information to us using the information above.
- You may also call our customer service center at the number shown above.

You are responsible for notifying us of any change in name or address for the person(s) you have designated. We ask that you review the third party designation information below, and notify us if you wish to make any changes.
